Introduction

Also known as the "miniature continent", Gran Canaria stands out for its marked contrasts. In the same day you can enjoy marvellous beaches surrounded by dune fields and climb to the peaks covered with Canary Island pine forests, whose greenery stands out against the dark volcanic substratum.

Gran Canaria completes its countless offer with a wide range of cultural, leisure and sporting activities, as well as a wide range of accommodation, restaurants, commercial establishments and wellness centres.

#GranCanaria #GranDestino.

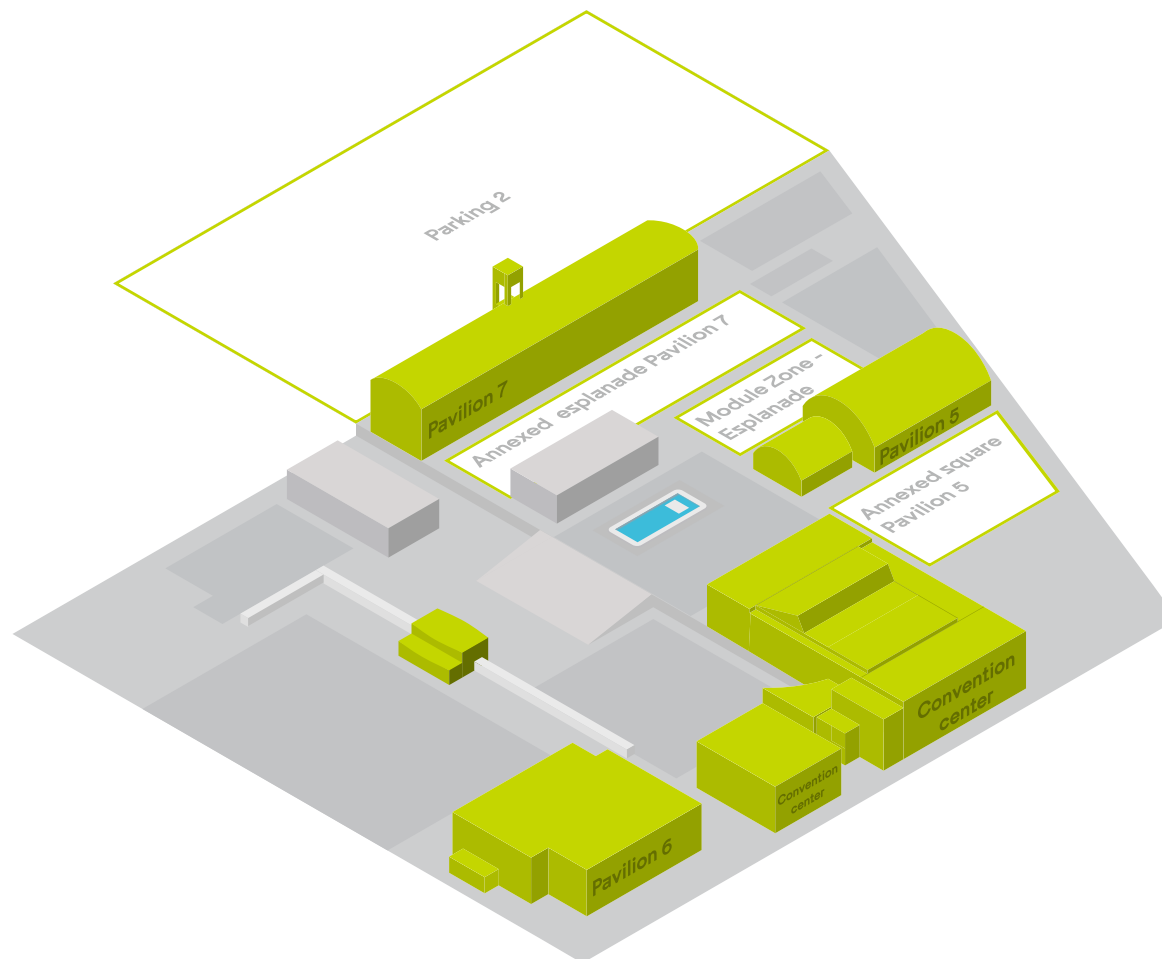

About us

Since 1965, at Infecar we have been working tirelessly to contribute to the business, social and sustainable development of Gran Canaria, promoting the growth and progress of companies, people and our island towards a better future. Dependent on the Gran Canaria council, we are the leading trade fair institution in the Canary Islands and one of the benchmarks in the trade fair and congress sector in the region.

Today we are a space for business and experiences which, through trade fairs, congresses and events, offers an incomparable place to connect with what unites us through spaces without limitations and in movement.

01. Our spaces

A space where Gran Canaria meets the world. And the world, with Gran Canaria.

Convention Center

At Infecar we create, organise and facilitate experiences in any place or channel, generating opportunities for growth and progress for Gran Canaria.

No two encounters are the same and our enclosure offers unlimited space for all types of events. The Gran Canaria Conference Centre complements our trade fair activity with our congress activity, with multiple versatile rooms that can be adapted to any need. Inaugurated in 1994, this building has a capacity for more than 2,000 people, with modern facilities and technical means adapted to the most demanding requirements. These include the Sala Canarias, Sala Bandama, Sala Roque Bentayga and Sala Tamadaba.

In addition, the Convention Center offers a range of services adapted to each type of event, from planning, organisation and development, including assembly and dismantling, hostesses, translation, audiovisuals, protocol and communication.

Halls:	Sala Canarias	Sala Bandama	Hall Roque Nublo
	Sala Tamadaba	Sala Lola Massieu	Hall Maspalomas
	Sala Roque Bentayga	Sala Vegueta	Hall Canarias

Sala Canarias

STRUCTURAL DETAILS
